Get productive in **5 minutes**. For the full guide, see the User Manual.

1. Install & permissions

1. Install **Pinfold** from Google Play.
2. Allow **storage** (and photos/videos if asked).
3. Optional: **Sign in** with Google or email for cloud backup and Social Hub.

2. First 5 minutes

Step	Where	Do this
1	Settings → App lock	Set PIN + biometric
2	Files	Browse folders; try search
3	Home	Check cloud links & social summary
4	Settings → Pro mode	Turn on for cleanup tools
5	Storage	See what uses your space

3. Six tabs at a glance

Tab	What it does
Home	Dashboard — cloud, social stats, quick summary
Files	Full file manager
Storage	Space breakdown & large files
Pro or Recycle	Cleanup tools <i>or</i> deleted items
Vault	Encrypted private files
Settings	Account, subscription, cloud, support

4. Home dashboard (your command center)

Cloud backup providers — Google Drive, OneDrive, Dropbox link status (**Basic+**).

Social Publishing Hub — Total posts, scheduled, failed, connected accounts. Tap to open Social Hub.

Quick summary — Files, folders, on-device storage, cloud links.

5. Plans in 30 seconds

Plan	Price	Highlights

6. Three workflows you'll use most

Browse & manage files

Files → open folder → long-press for rename, delete, lock, or move to vault.

Back up to your cloud

Home → tap a cloud card → connect Drive, OneDrive, or Dropbox (**Basic+**).

Publish to social

Home → **Social Publishing Hub** → **Compose** → add media & caption → choose platforms → **Publish** (schedule on **Pro+**).

7. Need help?

Issue	Fix
Can't see all files	Grant All files access in Android settings
Cloud won't connect	Sign in + Basic plan or higher
Scheduling greyed out	Upgrade to Pro or Business
Lost vault passphrase	Cannot recover — no back door
